Ideas for Organisation, Documentation, and Policy

Productivity and Organisation Ideas

Soft skills/policy and Organisation of Responsibility

- Should we make a group charter?
  - Layed out a policy for conflict resolution
  - Increased organisation
- Document everything before laying down code
- Plan out a schema before laying down code
- Create all classes, methods, and functions before coding
- Do we want to create a policy for styling our Documentation, Wiki, ect.?

Hard Organisation

- Git
  - Get everyone up to speed with git
    - Crash Course Time!
- Hosting Git
  - Github hosting
  - Hunter's website hosting
  - Host GitHub and mirror on mine?
- Documentation
  - Style policy
    - Can be reused for future projects!
- Documentation Hosting
  - Where will documentation be hosted?

Posable Resources for Inspiration
